Upcoming Release: HTML Printer Driver

The new **Color** and **ColorPlus** Printer Drivers will include a self-contained HTML Printer Driver, which will convert any printable document into an editable, ready-to-publish HTML file with text, pictures, graphics, and styles. Text will be extracted into editable HTML paragraphs exactly positioned and formatted according to the source document. Images will be extracted from the document and saved as individual image files in a separate directory. Styling can be written to external CSS files or even embedded internally! Keep an eye out for this amazing new feature in Color and ColorPlus, and make sure you can upgrade for free with your active **Maintenance Subscription**

XPS Conversion with Black Ice Printer Drivers

Printing any documents into XPS file format is available in all Black Ice printer drivers. If Microsoft Office 2007 is installed and the

Microsoft XPS Document Writer is selected as a redirected printer in Black Ice Printer Driver -> Printing Preferences -> Redirect Printing, all printed documents will be redirected to the Microsoft XPS Document Writer and converted automatically.

Free Upgrades and Priority Support

Don't forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases of your software for free with your subscription! Also included with your Subscription is Priority email technical support. For more information call us at (603) 882-7711 Extension 2, or Sales@Blackice.com. As a special offer, if your Maintenance Subscription has expired or you did not include the Maintenance Subscription with your original purchase, simply mention this newsletter to renew or add Maintenance retroactively!
