Black Ice Software - July 19, 2016

## Introducing Printer Driver configuration during the Installation, on Servers, and for Agent Printers!

Black Ice Software has released Printer Driver 14.68!

The Black Ice Printer Driver has **extended capabilities to configure the printer settings for all users** from different approaches, in different scenarios. The Black Ice Printer Driver can be configured for all users during the installations, and after the installation.

On Windows Server environments, the Black Ice Printer Driver installs the **Document Converter Configuration Manager** utility, which is an easy-to-use tool for Administrators to configure any installed Black Ice Printer for any users or user groups.

The current released Black Ice Printer Driver has the following capabilities to configure the printer settings:

[Configuring the Drivers for Users by Administrators during installation](#)  
[Configuring the Drivers for Users by Administrators](#)  
[Configuring on Servers: Document Converter Configuration Manager](#)  
[Upgrading the ColorPlus Printer Driver and preserving the settings](#)

### Configuring Shared Printer Driver Settings:

[Update Shared printers on the Host and Client](#)  
[Applying settings from host for shared printers on client machines](#)  
[Configuring UNC path for output directory in shared printers](#)

### Configuring Printer Driver Output Directory:

[Changing Output Directory](#)  
[Configuring Output Directory with Environmental Variables](#)

### Configuring Agent Printer Settings:

[Configuring Agent Printers](#)  
[Configuring Agent Printers for every user](#)
