AND WITH A NEW
LINE ADJUSTMENT OPTION

10% discount for Printer Driver*

Coupon code: **gEMArt6**

Valid through June 30th 2018

Download Printer Driver Now!

The **Black Ice Printer Drivers** are the complete solution for businesses needing a fast and reliable document conversion or virtual printer driver tool.

The newly released **Black Ice Printer Driver** comes with a **new Line Adjustment** option for text output. This Line Adjustment feature helps to properly determine the line break during text extraction, generating a more accurate outputted text file. **PDF font options** were also expanded with the addition to "Embed Identity encoded CID fonts only."

Beside the above new features, the latest Printer Driver's includes many **stability improvements for Text Output and printing**, which improves user experience and efficiency.

How Do I use Line Adjustment and What is it for?

The **Line Adjustment** option is a great solution when extracting text from documents where not all the fonts may be aligned properly. Without the Line Adjustment feature the text output may have added or removed lines based on the document. If a line in the text output of the Printer Driver should be separate lines, the user may lower the Line Adjustment value to help correct this. If separate lines should be in the same line, increasing the Line Adjustment value will resolve this.

The complete list of improvements in the latest Printer Driver includes the following:

- Stability improvement for handling registration errors during Printer Driver MSI installation
- Stability improvement for blank pages, when printing from certain applications and redirecting the output to another printer
- Stability improvement for Text Output when using the "Add font information, position and style" formatting style
- Added "Line Adjustment" INI file option for text output
- Added "Embed Identity encoded CID fonts only" option to PDF font options
- Stability improvement for font embedding when printing certain documents

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
