Black Ice Software - March 13, 2014

## Printer Driver 13.94 is released!

### Default Printer Set Up during the installation and stability improvements for Saving documents

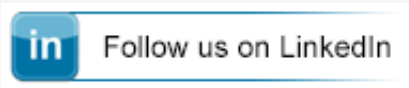

The Black Ice Printer Drivers version 13.94 includes a new feature to **Set up the Black Ice Printer Driver as the Default Printer** for the current user or all users on the computer during the installation.

The latest release of Black Ice Printer Driver **MSI Installer** also introduces the new Default Printer feature beside the **new Trace logging**, which logs every step of the installation and license registration process in order to facilitate System Administrators. This helps determine the success or failure of **large scale deployments**.

In addition, the latest release of Black Ice Printer Driver includes **improved image quality when bypassing the spooler** (using RAW data type), which can highly **increase the conversion speed** in case of very large documents. The latest release also includes stability improvements for the "Save as" feature when using the drivers with **RemoteApp**. Also, the latest release of Black Ice Printer Driver includes stability improvements when printing into a **restricted folder and the printed document is missing**.

**The complete list of improvements in the latest Black Ice Printer Driver 13.94 includes the following:**

## Exclude Me

If you no longer wish to receive this email [please click here](#).

- Added Default Printer Set Up feature to the Printer Drivers and MSI Installer
- Added trace logging to the Printer Driver MSI Installer for Registration
- Stability improvement for the "Save as" feature when using the drivers with RemoteApp
- Stability improvement when printing documents into restricted folder and the printed document is missing
- Stability improvement when Automatically loading paper list
- Stability improvement for the Document Converter Printer Driver Installers
- Improved image quality when bypassing spooler (using RAW data type)
- Updated Manuals
