Black Ice Software - March 4, 2014

Printer Driver MSI Installer Logging Registration Process!

The Black Ice Printer Driver MSI Installer version 13.92 **includes detailed logging of the registration process**, in order to facilitate System Administrators and System Integrators to determine the success or failure of the automated Printer Driver Registration, in **large scale deployments**.

The introduced new logging in the MSI Installer, **logs every step of the installation and license registration** process during the installation, which means, Administrators and System Integrators can identify and troubleshoot the communication related issues.

The improved registration logging in the Printer Driver MSI Installer creates a BiPDMSIRegistrationDataLog.txt named log file automatically in the User's temp folder. Some of the events:

- Registration was successful
- The specified Serial Number is not valid for this product
- The Printer driver is already registered

The MSI Installer includes **updated documentation** with detailed information about the error codes and improve user guided for deployment.

For MSI Installer availability, contact sales@blackice.com or call +1(603) 882 7711 Ext:2.
