Black Ice Software - November 10, 2015

Printer Driver version 14.44 is released!

New capability to share "End-User" Black Ice Printer Drivers and Agent Printers over the network!

Black Ice Software has released the Printer Driver version 14.44 including **new printer sharing capabilities**. The new Black Ice Printer Driver can be shared over the network as any other physical printer.

A shared network printer has many advantages in today's office. Shared network printers are quite simple to set up and very easy to use once configured. Some of the primary benefits include:

- **Saving Time:** Administrators only have to install the printer driver on one computer. Once installed, it can be shared with only a few clicks and can be used on the entire office network.
- **Less Maintenance:** You only have to maintain one installed printer, instead of troubleshooting various installed virtual printers on every office computer.
- **Agent Printers for Common Tasks:** Administrators can preconfigure and share Agent Printers, letting employees to minimize the amount of time consumed by setting up the printers each time.
- **Better Administration:** Every printed document will be gathered to one centralized computer, letting Administrators to easily view through and process the documents.
