### Printer Driver Configuration Through INI File

10% discount for Printer Driver\*

Coupon code: **gEMArt6**

Valid through October 31th 2018

Download the Printer Driver Now!

Black Ice Software has released version 15.30 of our Printer Driver's, with fundamental **changes to the installation and configuration** of the printer driver.

These new changes significantly **simplify the printer driver deployment** for Administrators, reducing the time spent on new deployment's and upgrades.

The improvements are made in how the printer driver is configured through the INI files or profile file. These improvement will apply to every future **OEM printer driver** installation or any installation that uses the **MSI installer with the INI file option**, including the **RTK sample installers**. The changes were made to the binary "Flags," "LaunchFlags," "AnnotationFlags" and "WatermarkFlags" keys which are replaced with easy to use keywords. Any previously created INI files will continue to work with future installations, preventing the need to immediately update

existing INI files.

There are also several additional improvements to the MSI installation and uninstallation process.

The complete list of improvements in the latest Printer Driver includes the following:

- Significant changes in how the printer driver is configured through the INI file. These changes will apply to every OEM printer driver installation or any installation that uses the MSI installer with the INI file option, including the RTK sample installers. The binary "Flags", "LaunchFlags", "AnnotationFlags" and "WatermarkFlags" keys are replaced with easy to use keywords. Any previously created INI files will continue to work with future installations, preventing the need to immediately update existing INI files.
- Added option to Profile Manager tab to export current settings as a configuration INI file for customized installations
- Added "Display email sent successfully message" and "Display error message" options to the email settings
- Stability improvement for using environment variables in Header, Footer and Annotation text
- Stability improvement for End-User PDF printer drivers MSI installer for using PDF/A file format
- The file format drop down lists is made larger to show all the file formats without scrolling
- Minor user interface improvements
- Updated Manuals

### Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or [sales@blackice.com](mailto:sales@blackice.com).

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

\*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
