Download the Printer Driver Now!

The **NEW Cover Page Filler** for the Black Ice **OEM printer driver's** version 15.62 is now available for **Developers and system integrators**.

The Cover Page filler will be available for the **Tiff/Monochrome, ColorPlus, Color, PDF, and EMF** OEM printer drivers to be incorporated into commercial applications!

The **Cover Page Filler** can be obtained as an **add-on** for existing **OEM printer driver customers**. Please contact sales@blackice.com for details on licensing to add this integral component to your existing license!

The **Cover Page Filler** has been released with a built-in option to **fill and insert a cover page to the beginning of the printed document (to be the first page)**. The Cover Page Filler is launched by

the Printer Driver during the printing process to **enable users to fill the cover page**. The cover page could be a single page or multiple page fillable TIFF Form prepared by the TIFF Form Designer. To read more about the Form Designer please [click here](#). The filled cover page will be converted to the desired file format that could also be an **editable PDF, TIFF, JPEG, etc..**

Key Features:

- **Start the Cover Page Filler before printing**
If this option is enabled, Cover Page Filler window appears before printing the document.
- **Start the Cover Page Filler after printing**
If this option is enabled, Cover Page Filler window appears after printing the document.
- **Seamlessly select the Cover Page from a List** – during the printing.
 - o Users can add and remove “Private” Cover Page to the list
 - o Administrator can add and remove “Common” Cover Pages
- **Use the Default Cover Page for every print job** – Preconfigured by the administrator during installation.
- **Convert the document with the Cover Page to any file format supported by the printer driver** including editable PDF, image PDF, TIFF, JPEG, etc...

The Cover Page Filler option works with the following post printing features of the Black Ice Printer Driver:

- Save As feature
- Launch/Start and application after printing
- Upload to FTP
- Upload to HTTP/HTTPS
- Upload to SharePoint
- Email the document
- Redirect print job to one or more physical printer(s)
- Print to memory, to be HIPAA compliant
- Merge multiple Print Jobs (documents) into single document.
