Black Ice Software has released Printer Drivers version 16.82, with several improvements of uploading documents to FTP, FTPS, SFTP, and with Agent printer samples for the OEM printer drivers. Printer Drivers version 16.82 is an optional update.

- Added **Agent printer samples for the OEM printer drivers** sample installation to help OEM developers create an installation for their applications. The Agent printer sample installation also includes how to preconfigure the Agent printers for every user on the system. The Agent printer samples are available for the Microsoft MSI and InstallShield MSI installation samples.
- The "Start Application" feature of the Printer Driver now writes an error message into the Windows Event Log if the "Start Application" could not be started.
- **Uploading documents** to FTP, FTPS, SFTP **through memory** without the converted document written on the local PC to be fully **HIPAA compliant**.
- Uploading the extracted text file or the OCR text file from the converted documents to an FTP, FTPS, SFTP through memory without writing the text files to the local PC.
