

Document Imaging version 12.96 is released!

Document Imaging SDK is with Annotation Sample
and using Vector PDF files

Annotation sample

Vector PDF support

10% discount for Document Imaging*

Coupon code: **gEMArt6**

Valid through February 28th 2022

Download Document
Imaging SDK Now!

Document Imaging SDK 12.96 now includes a brand new **C# Annotation sample** application that uses the Document Imaging SDK DLLs instead of the OCX/ActiveX controls. The outdated **OCX/ActiveX control** technology will be **phased out** for a more **secure alternative**. The annotation sample includes the source code on how to implement many of the complex annotations in the Document Imaging SDK to help developers easily transition their applications. The following annotations are available for implementation:

- Whiteout
- Highlight
- Note
- Line
- Rectangle
- Rounded rectangle
- Ellipse
- Text
- Freehand
- Metafile
- Stamp
- Rubber stamp
- Voice
- Comment
- Checkbox
- Textbox
- Multiline textbox
- Datetime
- Shape (Left/Right/Up/Down arrow)

Added support for **opening and saving Vector/Editable PDF** to the **Annotation C++, Annotation OCX C#, and Annotation DLL C# samples**.

The Document Imaging SDK now includes **new solutions** and **project files** for **Visual Studio 2022, 2019, and 2017** to the C++, C#, and VB.NET samples. We removed old solution and project files for

Visual Studio 2013, 2012, 2010, and 2005.

Many outdated samples are removed from Document Imaging SDK. Some of the samples were also updated. For more details please see the Document Imaging SDK version history.

The complete list of improvements in the latest Document Imaging includes the following:

DATE: 02-10-2022

Version: 12.96 (revision: 905)

- Annotation - Added Vector PDF opening and saving ability to the Annotation C++, Annotation OCX C# and Annotation DLL C# samples (#14885)

DATE: 02-01-2022

Version: 12.95 (revision: 901)

- Samples - Added new solution and project files for Visual Studio 2017, 2019 and 2022 to the C++, C# and VB.NET samples (#14808)
- Samples - Renamed the samples which use OCX files instead of DLLs (#14843)
- Samples - Removed old solution and project files for Visual Studio 2005, 2010, 2012 and 2013 (#14839)
- Samples - Removed outdated or redundant samples (Color PDF, Set Any Devmode and Thumbnail samples) (#14842)
- Samples - Added missing source files (FormDateTime) to the Document Imaging OCX C# and Annotation OCX C# Samples (#14861)
- Database - Added new functions to the BiDB.dll for getting the database error message on failure (#14844)
- Scanning - Fixed runtime exception when starting the Twain C# and VB.NET Samples (#14845)

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
