10% discount for Auto-Print SDK*

Coupon code: **gEMArt6**

Valid through July 31th 2022

Download Printer Driver Now!

The **Auto-Print SDK** version **16.94** is now available including many new features and enhancements for developers!

Some of the recent feature additions are:

- **Convert PDF** with special characters in the file name that Adobe reader cannot process.
- Added **IBM IOCA** and **MO:DCA conversion** formats to the Auto-print SDK. The IBM IOCA and MO:DCA conversion used the Document Imaging SDK. The IBM IOCA and MO:DCA file formats support 1-bit black and white color depth with IBM MMR compression, 8-bit grayscale with JPEG compression, and 24-bit color with JPEG compression. The MO:DCA file format supports single and multi-page documents.
- **Improved logging to help developers** troubleshoot problems and improve installations. The Auto-print now logs the component's name and version number to avoid component mix-ups.
- Added the **Visual Studio 2022/2019/2017** project and solution files to the Auto-print SDK samples to help developers.

The complete list of improvements in the latest Auto-print includes the following:

DATE : 06-07-2022

Version : 16.94 (revision: 514)

- Added "BIAPWriteVersionsToLog" function to write the version of all Auto-print components to a log file (#15077)

DATE: 05-31-2022

Version: 16.92 (revision: 513)

- Stability improvement printing PDF files that have # characters in their path with Foxit Reader (#15079)
- Corrected version in the Auto-print SDK installer's properties (installation and licensing was not affected by the problem) (#15231)

DATE: 05-11-2022

Version: 16.91 (revision: 511)

- Added the Visual Studio 2022/2019/2017 project and solution files to the Auto-print SDK samples (#14972)
- Removed the Visual Studio 2013/2012/2010/2005 project and solution files from the Auto-print SDK samples (#14974)
- Renamed the samples which use OCX files instead of DLLs (#14973)
- Updated eLicense dll version to 6.30.301
- Updated BuRegister dll version to 16.92.2819

DATE: 03-24-2022

Version: 16.88 (revision: 505)

- Added support to converting IBM IOCA and MO:DCA images (#15016)
- Version checking improvements in the licensing (#14541)
- Updated eLicense.dll to version 6.29.300
- Updated BuRegister.dll to version 16.89.2801

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our [Customer License Management Portal](#).

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
